

Cuadra, Audrick Zander G.
CPE32S3

The Documentation consists of 3 models that were tested with my very dataset. It provides the classification of the face detection models for each instance. The model is set to label my face as **Recognized Individual** and my sibling as **Unrecognized Individual**. The expected and actual output are specified in order to know the performance of each model.

EigenFaceRecognizer Model

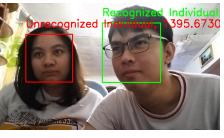

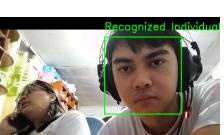

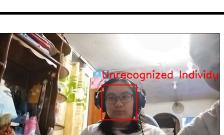

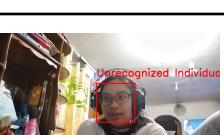

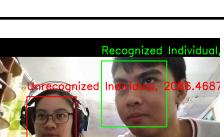

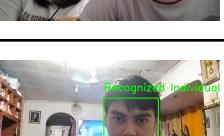

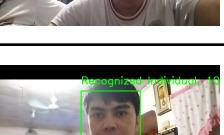

Trials	Image	Expected Output	Actual Output	Type
1		Recognized Individual	Recognized Individual	Match
2		Recognized Individual	Recognized Individual	Match
3		Recognized Individual	Recognized Individual	Match
4		Recognized Individual	Recognized Individual	Match
5		Recognized Individual	No Output	Mismatch
6		Recognized Individual	Recognized Individual	Match
7		Recognized Individual	Recognized Individual	Match

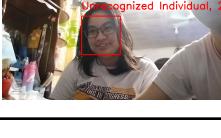

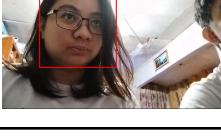

8		Recognized Individual	Recognized Individual	Match
9		Recognized Individual	No Output	Match
10		Recognized Individual	No Output	Mismatch
11		Unrecognized Individual	Unrecognized Individual	Match
12		Unrecognized Individual	Unrecognized Individual	Match
13		Unrecognized Individual	Recognized Individual	Mismatch
14		Unrecognized Individual	Recognized Individual	Mismatch
15		Recognized and Unrecognized Individual	Both Recognized Individual	Mismatch
16		Recognized and Unrecognized Individual	No Output	Mismatch
17		Recognized Individual	Recognized Individual	Match

18		Recognized Individual	Recognized Individual	Match
19		Recognized Individual	Unrecognized Individual	Mismatch
20		Recognized Individual	Unrecognized Individual	Mismatch

FisherFaceRecognizer Model

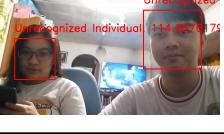

Trials	Image	Expected Output	Actual Output	Type
1		Recognized Individual	Recognized Individual	Match
2		Unrecognized Individual	Unrecognized Individual	Match

3		Recognized and Unrecognized Individual	Recognized and Unrecognized Individual	Match
4		Recognized and Unrecognized Individual	Recognized and Unrecognized Individual	Match
5		Recognized Individual	Recognized Individual	Match
6		Recognized Individual	Recognized Individual	Match
7		Recognized Individual	Recognized Individual	Match
8		Unrecognized Individual	Unrecognized Individual	Match
9		Unrecognized Individual	Unrecognized Individual	Match
10		Recognized and Unrecognized Individual	Recognized and Unrecognized Individual	Match
11		Recognized Individual	Recognized Individual	Match
12		Recognized Individual	Recognized Individual	Match

13		Recognized Individual	Recognized Individual	Match
14		Recognized Individual	No Output	Mismatch
15		Unrecognized Individual	Unrecognized Individual	Match
16		Unrecognized Individual	Unrecognized Individual	Match
17		Unrecognized Individual	Unrecognized Individual	Match
18		Unrecognized Individual	Unrecognized Individual	Match
19		Unrecognized Individual	Unrecognized Individual	Match
20		Unrecognized Individual	Unrecognized Individual	Match

LBPHFaceRecognizer Model

Trials	Image	Expected Output	Actual Output	Type
1		Unrecognized Individual	Unrecognized Individual	Match
2		Unrecognized Output	Unrecognized Individual	Match
3		Recognized Individual	Unrecognized Individual	Mismatch
4		Recognized Individual	Unrecognized Individual	Mismatch
5		Unrecognized Individual	Unrecognized Individual	Match
6		Unrecognized Individual	No Output	Mismatch
7		Unrecognized Individual	No Output	Mismatch

8		Recognized Individual	No Output	Mismatch
9		Recognized Individual	Unrecognized Individual	Mismatch
10		Recognized Individual	Unrecognized Individual	Mismatch
11		Unrecognized Individual	Unrecognized Individual	Match
12		Unrecognized Individual	No Output	Mismatch
13		Recognized Individual	Unrecognized Individual	Mismatch
14		Unrecognized Individual	Unrecognized Individual	Match
15		Recognized Individual	Unrecognized Individual	Mismatch
16		Recognized and Unrecognized Individual	Both Unrecognized Individual	Mismatch
17		Unrecognized Individual	Unrecognized Individual	Match

18		Recognized Individual	Unrecognized Individual	Mismatch
19		Recognized and Unrecognized Individual	Both Unrecognized Individual	Mismatch
20		Recognized and Unrecognized Individual	Unrecognized Individual	Mismatch
